Report

Electrical Engineering Department of VPM's Maharshi Parshuram College of Engineering has organized a 1-day industrial visit at Pethe brake motors, Modka Agar, Guhagar on Thursday 13th April 2023. This visit was for academic purposes. It was for second year Electrical Engineering students.

Visit was started at 10 am. Initially students were shown automatic lathe machines and its programming. Then company employee shown them how brake testing is carried out. And at last students were handover to Electrical Department, where they were shown how stator windings are made, how entire assembly of motor is done, how varnishing is done, how high voltage insulation testing is carried out and everything about 3 phase induction motor. Entire visit was very nice and fruitful.

To make this visit successful, Mr. Dipak Kardare from company side cooperated us very nicely. To make this event happen in nice and smooth way, Dr. Vijay Bedekar (Chairman of VPM's MPCOE), Dr. Narendra Soni (Principal) & Mr. Satish Ghorpade (HOD, Electrical) specially guided us. For this visit, total 13 students of second year Electrical Engineering were enthusiastically participated.

Some photographs are attached herewith.
