Report

Department of Electrical Engineering has successfully conducted free webinar on the occasion of Energy Conservation Day. (14th December 2021)

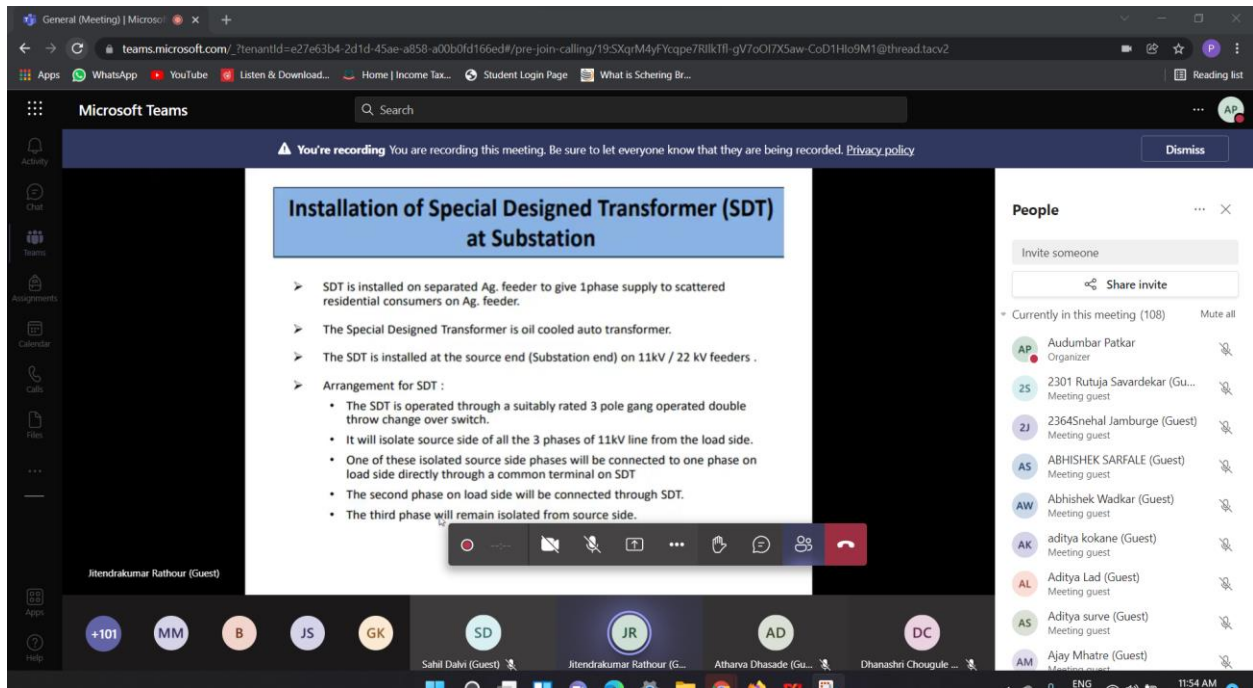

Topic of the webinar was 'Energy Conservation.'

Mr. Jitendrakumar Rathour (Additional Executive Engineer, MSEDCL, TRD Nashik) was the speaker.

Mr. Rathour had explained many opportunities for building advanced technologies in non-conventional energy sources, its advantages, and sustainable options of future energy and various opportunities for Energy Conservation and importance of Energy Conservation.

Webinar was for all students of SE, TE and BE of our college. Also around 8 nearby degree and diploma college students and faculties were also invited to attend the webinar online. It was conducted through online platform i.e. Microsoft team. Total around 160 students and faculties have attended the webinar. It was very nice and fruitful event for students as well as faculties.

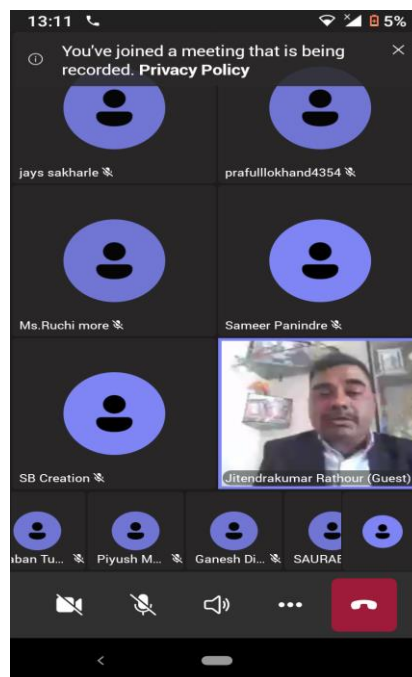

Following are some snapshots of the event.

(Students from Mandar Diploma College attending the webinar)
