

Department of EXTC : Journal Club 2017-18

Sr. No	Date	Time	Name of faculty	Topic, Journal details
1	24/11/2017	10:00am	Mr. Prashant Mahajan	HPC system for wireless Interconnect(ME Project)_
2	25/11/0217	10:00am	Mr. Atul Samant	Object Recognition & Presence Detector, Simulation using Lab view (International Journal of Management & Applied Science)
3	27/11/0217	3:00pm	Mr. Sandeep Dwivedi	Artificial Intelligence and Human Thinking
4	28/11/2017	10:30am	Mr. Vinod Salunkhe	Light intensity control system using Android application
5	29/11/0217	11:00am	Ms. Bhakti Gangan	Lossless Compression of JPEG photo Collection (IEEE Transaction on Image processing)
6	30/11/2017	11:00am	Mr. Prathamesh Ghanekar	Neural Network Approach for Pattern Recognition(IJSER June 2012)
7	1/12/2017	10:00am	Mr. Gajanan Khapre	Automatic cursor movement with eye gaze tracking(IEEE Trans.on Human Machine System)
8	4/12/2017	3:00pm	Mr. Sushil Sirsat	Secure key management scheme for WSN(Indian Journal of mobile Communication & Networking, Vol.6 No.2)
9	6//12/2017	10:30am	Mr. Deepak Dange	Computer vision enhancement & Plant leaf disease detection (International Journal Modern Technology & Research)
10	9/12/2017	10:00am	Mr. Prashant Mahajan	High Linearity & high gain folded cascade amplifier for narrow band

				receiver application (Microelectronics Elsewhere, 2016)
11	23/12/2017	11:30am	Mr. Prathamesh Ghanekar	Automatic modulation classification for cognitive Radio(IEEE Circuits & systems Magazine, Second quarter2009)
12	13/01/2018	10:00am	Mr. Atul Samant	Remote Monitoring probe with MIB & MDB (IOP conference series, Material Science & Engineering)
13	27/01/2018	3:00pm	Mr. Sufiyan Mukadam	Performance improvement in wireless sensor network system(Indian Journal of mobile Communication & Networking, Vol.6 No.1)
14	10/02/2018	10:00am	Mr. Sandeep Dwivedi	Robotics and Intelligent Systems in Support of Society
15	24/02/2018	3:00pm	Mr. Gajanan Khapre	Digital Nervous System(Digital Commons @University of Nebraska)
16	10/03/2018	10:30am	Mr. Deepak Dange	Comparative analysis of filters in image processing(International Journal of Signal Processing, Image Processing, Pattern Recognition)
17	24/03/2018	3:00pm	Mr. Vinod Salunkhe	Speech Recognition using image processing
18	7/04/2018	2:30pm	Ms. Bhakti Gangan	Probabilistic Neural Network for Brain Tumor Classification (second International Conference on Intelligent systems, Modeling & simulations)
19	5/05/2018	10:00am	Mr. Sufiyan Mukadam	Design of Power Optimization using C2H (International Journal of Computer science & mobile

				Computing)
--	--	--	--	------------

Journal Club Meeting

Date: 24/02/2018

Time: 3:00 pm

Topic: Digital Nervous System.

Speaker: Dr. Gajanan Khapre

Present members:-

① Mr. Sufiyan Mukadam.

② Mr. Sushil Siroat

③ Mr. Prathamesh Ghanekar.

④ Mr. Vinod Salunkhe

⑤ Mr. Atul Samant

⑥ Mr. Deepak Dange

⑦ Mr. Prashant Mahajan.

⑧ Ms. Bhakti Gangan.

Points

① Literature Review of DNS

② Research Design and methodology

③ Project description and Data collection

④ Data analysis and Result discussion

⑤ Conclusion and Recommendation

Journal Club Meeting

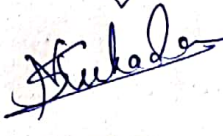

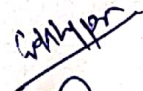

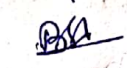

Date: 10/02/2018

Time: 10:00 am

Topic: Robotics & Intelligent System in Support of Society.

Speaker: Mr. Sandeep Dwivedi

Present members:-

- ① Mr. Sufiyon Makdam. 
- ② Mr. Gajanan Khapre. 
- ③ Mr. Prashant Mahajan. 
- ④ Ms. Bhakti Gangan. 

- ① Robotics is the humanless system working by helping to society.
- ② Neural Network & robotics includes the intelligent system.
- ③ Combining the robotics & intelligent system, we can design multiple application in different areas like, agricultural, Defence medical, and many more.

Journal Club Meeting

Date: 10/03/2018

Time: 10:30 am

Topic: Comparative Analysis of filters in IP.

Speaker: Mr. Deepak Denge,

Deepak

Present members:-

- ① Mr. Sufiyan Mukaddam
- ② Mr. Sandeep Dwivedi
- ③ Mr. Sushil Sirsat
- ④ Mr. Pauthamesh Ghunekar
- ⑤ Mr. Gajanan Khapre
- ⑥ Mr. Prashant Mahajan
- ⑦ Mr. Atul Samant
- ⑧ Ms. Bhakti Gengen.

(Signature)

(Signature)

(Signature)

(Signature)

- ① Different types of filters used in image processing.
- ② Best filters for image to get best results.
- ③ Particular filters are used for particular application.
- ④ Average filter, mean filter etc are different filters used in image processing.

Journal Club Meeting

Date: 24/03/2018

Time: 3:00 pm.

Topic: Speech Recognition using Image Processing.

Speaker: Mr. Vinod Salunkhe.

Present members:-

- 1) Mr. Sufyan Mukadam
- 2) Mr. Deepak Donge
- 3) Mr. Sandeep Dwivedi
- 4) Mr. Sushil Sissat
- 5) Mr. Pruthamesh Ghankar.
- 6) Mr. Arjunon Khapre
- 7) Mr. Prashant Mahajan.
- 8) Mr. Atul Samant
- 9) Ms. Bhakti Gangan.

- 1) Matlab implementation.
- 2) Database generation regarding different sign languages.
- 3) Speech recognition methods
- 4) Segmentation & extraction from image.

Journal Club Meeting

Date: 23/12/2017

Time: 11:30 am

Topic: AMC in Cognitive Radio.

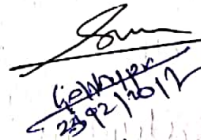

Speaker: Mr. Prathamesh Ghanekar.

PPrathamesh
23/12/17

Present members:-

- 1) Dr. A.M. Chinchalkar.
- 2) Dr. Shilpa Desoukhakar.
- 3) Mr. Subhyan Makadam.
- 4) Mr. Gujanan Khapre
- 5) Mr. Deepak Dange
- 6) Ms. Bhakti Gangan.
- 7) Mr. Ketan Kundlik
- 8) Ms. Vinodini Selvi
- 9) Mr. Prashant Mahajan
- 10) Mr. Atul Semant.
- 11) Dr. S.V. Desoukhakar

23/12

23/12/17

Topics discussed -

- ① Cognitive radio concept
- ② Spectrum Sensing techniques
- ③ Cyclostationarity of signals
- ④ Cyclic domain profiles of signals
- ⑤ Modulation techniques in analog domain

Journal Club Meeting

Date: 09-12-2017

Time: 10:00 am.

Topic: High linearity & High Gain folded cascode ampl^r for NB RX Appⁿ

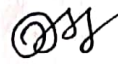

Speaker: Mr. Prashant Mahajan.

Present members:-

① Mr. Sufiyan Mukaddam

② Mr. Atul Samant

③ Mr. Vinod Salunkhe

④ Mr. Prathamesh Chhonker.

⑤ Mr. Gajanan Khepre

⑥ Mr. Prashant Mahajan

⑦ Ms. Bhakti Geungan.

Points Discussed:-

- ① Narrow Band applications
- ② Cascode amplifiers
- ③ Folded Cascode amplifiers
- ④ Implementation in ADS 2016

Journal Club Meeting

Date: 6-12-2017

Time: 10:30am

Topic: Computer vision enhancement & plant leaf disease detect?

Speaker: Mr. Deepak Dange.

Deepak

Present members:-

① Mr. Atul Sumant

AS

② Mr. Gajanan Khapre

GK

③ Mr. Prashant Mahajan.

PM

④ Mr. Prathamesh Ghanekar

PG

⑤ Ms. Bhakti Gangekar.

BG

① Matlab implementation

② detection of plant disease according to the images taken from field.

③ Enhancement of the image for better results

④ Segmentation & Extraction of the feature from image

Journal Club Meeting

Date: 4-12-2017

Time: 3:00pm

Topic: Secure key Management for WSN

Speaker: Mr. Sushil Sirsat

Present members:-

① Mr. Deepak Dange

② Mr. Atul Samant

③ Mr. Gajanan Khapre

④ Mr. Prathamesh Ghonekar

⑤ Mr. Prashant Mahajan

⑥ Ms. Bhakti Gungon

About Topic :

- Wireless sensor networks uses any kind of wireless devices. Some of them are nodes and some of them are co-ordinators.
- WSN is like is network of which will connect each of node distinctly for communication.
- For such network privacy is important so we are providing the secure key to WSN which will secure the WSN. to avoid data breach.

Journal Club Meeting

Date: 1/12/2017

Time: 10:00 am

Topic: Automatic cursor movement with eye gaze tracking.

Speaker: Mr. Gajanan Khapre. GK

Present members:-

- ① Mr. Vinod Salunkhe VS
- ② Mr. Prathamesh Ghanekar PG
- ③ Mr. Atul Samant AS
- ④ Mr. Gajanan Khapre GK
- ⑤ Mr. Prashant Mahajan PM
- ⑥ Ms. Bhakti Gengen. BG

Points to discuss

- ① overview of conventional Eye tracking system
 - ② proposed methodology
 - ① Eye Detection
 - ② Eye tracking
 - ③ Key frame Extraction
 - ④ cursor pointing
 - ⑤ Result and Discussion
 - ① Experiment Setup.
 - ② Performance Analysis
 - ③ conclusion
- Algorithm which implement

Journal Club Meeting

Date: 30/11/2018

Time: 11:00 am.

Topic: Neural Network Approach for Pattern Recognition.

Speaker: Mr. Prathamesh Ghanekar

Present members:-

- ① Mr. Atul Samant
- ② Mr. Vinod Salunkhe
- ③ Mr. Gajanan Khapre
- ④ Mr. Prashant Mahajan
- ⑤ Ms. Bhakti Gangan.

Topics discussed -

- ① Neural network concept
- ② MATLAB for neural network
- ③ Back propagation algorithm
- ④ Performance matrix
- ⑤ Pattern recognition

Journal Club Meeting

Date: 25/11/2017

Time: 10:00 AM

Topic: Object recognition & presence detector simulation using LABVIEW.

Speaker: Mr. Atul Samant.

Present members:-

① Mr. Prashant Mahajan

② Mr. Sushu Bhosat

③ Ms. Bhakti Gangan.

④ Mr. Deepak Dunge

⑤ Mr. Vinod Sabunkhe

⑥ Mr. Gajanan Khapre.

⇒ The topic carries out discussion about how the LABVIEW helps to show the recognised objects and the system to do so.

National Instruments (NI) has developed this software and it is user friendly, can be used in industry where mass production is done. It is also used in automation industries.

Journal Club Meeting

Date: 24/11/2017

Time: 10:00 AM

Topic: HPC System for wireless interconnect.

Speaker: Mr. Prashant Mahajan.

Present members:-

① Mr. Prathamesh Ghanekar

② Mr. Arjunan Khupre

③ Ms. Bhakti Gengra

④ Mr. Vinod Salunkhe

⑤ Mr. Deepak Dange.

Points discussed.

- ① HPC System requirement
- ② Wireless Interconnects
- ③ CMOS Versus finFET
- ④ 60GHz frequency spectrum for interconnect.

Journal Club Meeting

Date: 21-07-2018

Time: 10:00am

Topic: Teaching Methodology for EXTC.

Speaker: Mr. Deepak Dange.

Deepak

Present members:-

① Ms. Bhakti Gangan.

Gangan

② Mr. Vinod Salunkhe

Salunkhe

③ Mr. Prathamesh Ghapkar

Prathamesh

④ Mr. Gajanan Khapse

Gajanan
21/07/2018

⑤ Mr. Prashant Mahajan.

Prashant

⑥ Mr. Sushil Siroset.

Siroset

- ① New teaching techniques according to the interest of students
- ② Flipped classroom, technique
- ③ Ans-question in classroom for attentive and interesting classroom teaching.
- ④ Subjectwise teaching in classrooms

Journal Club Meeting

Date: 14/07/2018

Time: 2:30

Topic: fractal Reconfigurable of antenna using PIN Diode.

Speaker: Mr. Sushil Sirose.

Present members:-

- ① Mr. Poushant Mahajan
- ② Mr. Poothamesh Ghunekar
- ③ Mr. Deepak Dange
- ④ Ms. Bhakti Gangan.
- ⑤ Mr. Atul Samant

- PIN diode is having p type material and n type material sandwiched by intrinsic layer.
- Due to reverse bias voltage applied across p-n junction the diode will act as capacitor.
- As capacitance is inversely proportional to frequency applied and capacitance is directly proportional to Area and inversely proportional to distance between the plates.
- As we are increasing the reverse bias voltage distance between plates increases and frequency operated increases.
- In this presentation the fractal antenna is design in a such way that it will operate on 6 different frequencies.

Journal Club Meeting

Date: 28/11/2017

Time: 10:30 a.m.

Topic: Light Intensity Control System using Android Application

Speaker: Mr. Vinod Salunkhe.

Good

Present members:-

① Mr. Atul Samant

ASJ

② Mr. Prathamesh Ghonekar

PG

③ Mr. Gajanan Khapre

GK

④ Mr. Prashant Mahajan.

PM

- 1) AVR studio for AVR microcontroller.
- 2) Android application requirement.
- 3) Light intensity algorithms.
- 4) Interfacing of different modules.

Journal Club Meeting

Date: 29-11-2017

Time: 11:00 am

Topic: Lossless Compression of JPEG Photo Collection

Speaker: Ms. Bhakti Gangan. BG

Present members:-

- ① Mr. Deepak Dange DD
- ② Mr. Atul Sumant AS
- ③ Mr. Vinod Salunkhe VS
- ④ Mr. Prathamesh Ghanekar PG
- ⑤ Mr. Gajanan Khapre GK
- ⑥ Mr. Poushant Mahajan. PM

Points Discussed:-

- ① Novel lossless compression method to reduce the size of a set of JPEG correlated images.
- ② It removes inter/intra image redundancies in feature spatial & frequency domain.
- ③ Compare to JPEG coded image collection, this method achieves average bit saving of more than 31

Journal Club Meeting

Date: 27/01/2018

Time: 3:00.

Topic: Performance improvement in WSN system

Speaker: Mr. Sufiyam mukadam

Sufiyam

Present members:-

- ① Mr. Sushil Sirsat
- ② Mr. Sandeep Dwiwedi
- ③ Mr. Deepak Ponge
- ④ Mr. Gajanan Khapare
- ⑤ Mr. Prathmesh Ghomelkar
- ⑥ Mr. Poushan Mahajan

Sirsat

Dwiwedi

Deepak

Khapare

Ghomelkar

Mahajan

7

Points Discussed.

- ① Wireless sensor network system.
- ② Advancement in terms of technology in WSN system.
- ③ Different layers in architecture of WSN system.
- ④ Characteristics of WSN system.
- ⑤ Application of WSN system.

Journal Club Meeting

Date: 13/01/2018

Time: 10:00am

Topic: Remote Monitoring probe with MIB & MDB.

Speaker: Mr. Atul Samant. - @sy

Present members:-

- ① Mr. Sushil Sissat 
- ② Mr. Deepak Dange 
- ③ Mr. Vinod Salunkhe. 
- ④ Mr. Prathmesh Ghonekar 
- ⑤ Mr. Prashant Mahajan 
- ⑥ Mr. Gajanan Khapre 
- ⑦ Ms. Bhakti Gangan. 

⇒ The topic contains the information about Telecommunication network management and in that nexus how MIB & MDB works.

These are databases that help network managers to manage the network, upgrade it and troubleshoot it effectively. One can add, delete or modify the component information with the help of these databases.

Journal Club Meeting

Date: 7/04/2018

Time: 2:30pm.

Topic: Probabilistic Neural Network for Brain Tumor Classification

Speaker: Ms. Bhakti Gangan.

Present members:-

- ① Sushil Sirsat
- ② Prashant Mahajan
- ③ Sandeep Dwivedi
- ④ Deepak Dange
- ⑤ Atul Samant
- ⑥ Vinod Salunkhe
- ⑦ Prathamesh Ghanekar

Points Discussed:-

- ① Probabilistic NN with images & data processing tech.
- ② Performance of PNN classifier is was evaluated in terms of accuracies & training performance.
- ③ PNN is implemented for classification of MR brain images.
- ④ PNN classifier is workable with an accuracy of 73% to 100% according spread values. (1 to 3).

Journal Club Meeting

Date: 5/05/2018

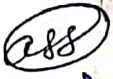

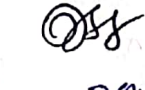

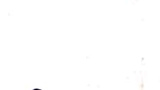

Time: 10:00 am

Topic: Design of power optimization using C2H.

Speaker: Mr. Supiyon Mukadam.

Mukadam

Present members:-

- ① Mr. Prashant Mahajan 
- ② Mr. Sushil Sissat 
- ③ Mr. Sandeep Dwivedi 
- ④ Mr. Vinod Salunkhe 
- ⑤ Mr. Deepak Dunge 
- ⑥ Mr. Prathamesh Ghanekar 
- ⑦ Mr. Atul Samant 
- ⑧ Ms. Bhakti Gangan. 

Point Discussed:

- ① Brief explanation of C2H hardware Accelerator.
- ② Modern tools used for optimization of power.
- ③ MIOS-II processor Architecture.
- ④ Bottle neck concept.

Department of Instrumentation Engineering conducting journal club activity twice in a month from 2017 to till yet.This session will be conducted by every faculty rotationally in front of all department faculties and shares his views, outcomes, results and conclusion with respective presented paper.

Detail record is as follows:

14/10/2017

SR No	Date	Time	Name	Topic/Journal	Detail	Sign																						
01	14/10/17	8:30 am	Ms. Poojya Gokhale	Plantar Pressure Measurement	TJ PPT 2017 Page: 136-137	[Signature]																						
<p>Outcome of discussion :- This is project performed in which the method of application of plantar pressure measurement technique is investigated. The objective was to design a test wear for people who suffer from deformities of foot due to fiber of circulation. Using force sensing resistor (FSR) sensor & parts of foot were identified and test wear is designed. Patients around 60 having normal, diabetic and diabetic neuropathy were identified and visited that pressure applied on mid foot is higher in case of DP group of compared to N and D groups.</p> <p>Attendance :-</p> <table border="1"> <thead> <tr> <th>Name of faculty & staff</th> <th>Sign</th> </tr> </thead> <tbody> <tr> <td>1. Outcome of Discussion:-
 Reviewed & discussed - Basic concept of AI and colony optimization algorithm technique. The goal of this study is to find a shortest path between source & destination so that one can use it in various application for finding a shortest path. We discussed various applications where we can use this concept like wireless communication & transportation route finding.

03	11/11/17	10:00 AM to 11:00 AM	Ms. Anurag Kamble	Quality control & functional test	ISOT Journal	[Signature]

Outcome of discussion:-
 The topic was based on level control of spherical tank having the dynamic behaviour. The industry has many such complicated applications where normal PID controller can not work so here they are used designed a T-PID controller by which level can be control. The advantage of this topic is we can also apply this control mechanism in our regular tank's having spherical shape. The contribution of the controller may vary with the application but give good solution for the critical operation.

Outcome of Discussion:-
 This paper is for condition monitoring of oil using wireless sensor. Leakage of oil from different oil section of dumper (trucks) can lead to fire accident & also machine failure if any considerable change in chemical or physical properties of oil takes place which result in loss of property & also life. The system model prepared by us is divided into transmitter & receiver section. The main objective of this paper is to prepare an efficient wireless sensor network in oil tank of dumper to collect & monitor the chemical, physical properties in real time by using zigbee & gsm & gps module along with leakage.

01	13/12/17	Mr. Mahesh Pawar	Air Flow Measurement with Various Differential Pressure Methods	IEEE 2019 International Conference on Emerging Technologies (ICET)	[Signature]

Outcome of discussion:
 This paper is for air flow rate measurement by using differential pressure method, i.e. Pitot-static probe, Venturi nozzle, or three hole pressure probe. For low air flow rate measurement we can use first method and last two methods are for high air flow rate measurement. The difference of the results of different methods was within 1%. For laminar flow bellmouth inlet the discharge coefficient was set to 0.96. To define discharge coefficient with higher precision comparison of bellmouth inlet with certified diameter using standardized method.

06	23/12/17	Mr. Viras Nandeshwar	Classification of Orange Juice Authentication using LDA, PCA & ANN	IR IEEE International Conference on Biomedical Electronics, Intelligent Control & Energy Systems	[Signature]

Outcome of discussion:
 The objective of this work is to characterize a low cost, robust, bio-compatible fractional order based sensor to detect various adulterants of orange juice samples. The classification of orange juice samples using LDA, PCA and ANN has been described. The data classification with LDA, PCA and ANN are compared using Discrimination Index (DI) to finally the best classification method has been identified using DI value.

07	27/01/18	Abhau Mohite, Rishikesh Surve, Sahali Udarde	Design and development of sensor	IEEE conference	[Signature]

Outcome of discussion:
 This sensor can be used in industrial and domestic applications, where the wastage of water is need to be avoid. The sensor doesn't require power supply, so it is useful at area where problems of electricity is occurred. Any unskilled person also can handle this type of kind sensor because of its easy handling, low cost & flexibility.

Outcome of discussion:
 Combined PET/CT provides metabolic function & anatomical function in single session. This paper describes various image processing applications that are introduced & developed to minimize artifacts enhance the required features for correct diagnosis which will help the radiologist as well as physician to decide way of treatment. This images are assumed to have high contrast and high resolution by using different reconstruction, filtering and robust algorithm.

Outcome: Most practical systems are nonlinear and are affected by disturbance, unmodelled dynamic modeling error. All these affect the performance of system and in some case lead to the instability of system. To avoid this robust controller was developed as using variable structure control. It present simulation result and those result were compare with robust smc of integral smc. It clearly show the robustness of proposed control.

21/04/18 10:30:15 AM	Ms. Jagtap Najuka S.	Target Controlled Anesthetic Drug Infusion	IEEE paper published in ICIC 2015	[Signature]

Outcome:
 Anesthetic drugs must be administered at an appropriate rate to prevent adverse reactions during ambulatory surgery and after discharge from the hospital. Target controlled infusion (TCI), choose the target concentration & infusion pump deliver the dose to patient. TCI helps to avoid underdose or overdose. The anesthetic drug propofol (Diprivan) shows the motion of patients brain & nervous system. TCI of propofol permits anesthetics to target constant blood concentrations & exact punctually & signs of inappropriate anesthetic depth. In sensitive to patient is controlled by control implemented in embedded system. It has better accuracy than manual infusion.

2	14/10/17	4.45 Pm to 5.15 Pm	Mr. M.J. Pawar	Replacement of cement by Metakaoline	

Outcome of discussion:

i) Mr. Sawant delivered his lecture on Research article "Steel fibre reinforced concrete" presented by Hisham et.al published in urban and environmental Engg. journal vol. 4. In this study authors conducted test on plain and steel fibre reinforced concrete cylinder. The fibre volume percentage varied from 0.5 to 1 %. Authors concluded that fibre reinforced concrete shows increasing tensile strength and ductility of steel fibre reinforced concrete as compared to plain concrete.

ii) Mr. Pawar delivered his lecture on Research article "Replacement of cement by Metakaoline. By adding Metakaoline in concrete ingredient, it shows good resistance to acid attack."

2					

Outcome of discussion:

Ms. Geetanjali Sawant delivered her Journal club lecture on Research article "utilization of demolished waste as fine aggregate in concrete" paper by Mohd Moish, Vikas Srivastava, A.V.C. Agarwal and Rakesh Kumar. She explained the study part of compressive program wherein experimental investigations have been carried out to assess the effect of partial replacement of fine aggregate by demolished waste on workability and compressive strength of recycled concrete for the study at a period of 7 to 28 days. The results showed the compressive strength of recycled concrete with 10% fine aggregate replacement by demolished waste has been found to be marginally lower than conventional concrete.

Journal Club Curriculum

Objectives

- 1) To critically appraise the literature
- 2) To develop an approach to the analysis of the various types of articles (methodology, technology, applications, demerits and merits, etc)
- 3) To understand the basis of hypothesis
- 4) To understand the basis of testing (prevalence, sensitivity, specificity, positive and negative predictive values)
- 5) To understand how results of study can be used in applications
- 6) To have record of research activity for NAAC eligibility

Core Curriculum

- 1) Journal club will held on 2nd and 4th Saturday of each month, for I hour without fail.
- 2) Minimum 2 faculties will present journal paper review in each session
- 3) All faculties will receive a index copy of journals from library
- 4) Articles should be chosen from **subscribed journals** only
- 5) Presentations/lecture/poster should be organized
eg. as follows: 10 minutes background, / article 15 minutes analysis 5 minutes discussion
- 6) Faculties are encouraged to critically appraise the literature, and develop their own independent criticisms.
- 7) **Department will maintain record of this activity in given format and acknowledge by the Principal.**
